Summary

Computer Science undergraduate with expertise in Next.js, TypeScript, Firebase, and Python. Skilled in building scalable web applications, implementing AI algorithms, and leading team projects. Passionate about solving real-world problems through innovative solutions.

Education

Vellore Institute of Technology, Andhra Pradesh

Sept 2023 – Present

B.Tech in Computer Science

- CGPA: 9.64/10.0
- **Coursework:** Data Structures, Algorithms, AI

Sri Chaitanya Junior College

July 2021 – May 2023

State Board of Intermediate Education, MPC

- Passed with 94%

Nalanda Vidya Niketan

2009 – 2021

Central Board of Secondary Education

- Passed with 92.6%

Projects

Personal Portfolio

[Explore My Portfolio](#) 🔄

- Developed a fully responsive personal portfolio showcasing technical skills and project experience with animations and optimized performance.
- Technologies: Next.js, TypeScript, HTML & CSS

TicTacToe - AI

[Website](#) 🔄

- Applied an AI algorithm to create a dynamic Tic-Tac-Toe game with varying levels of difficulty.
- Implemented minimax algorithm to vary difficulty levels.
- Technologies: Next.js, Firebase, TypeScript, HTML & CSS

WellNest

[GitHub](#) 🔄

- Built a web application using the Gemini and OpenWeather APIs to generate personalized wellness tips based on real-time weather data and user mood insights.
- Showcased at Hack This Fall 2024, offering innovative wellness solutions.
- Technologies: Next.js, JavaScript, Tailwind CSS, Firebase, Gemini API

Labyrinth Legend

[GitHub](#) 🔄

- Designed and implemented AI search algorithms (BFS, DFS) to enable automated maze solving and generation within a game environment.
- Led a team of 3 to develop an AI-powered maze-solving game.
- Technologies: Python, PyGame

Technologies

Languages: C, Java, Python, JavaScript, TypeScript, HTML & CSS

Frameworks & Libraries: React.js, Next.js, Tailwind CSS

APIs & Tools: Firebase, Gemini API, PyGame, Firebase Firestore, Vercel, GIT, GitHub

Co-Curricular/Extra-Curricular

- 2024: Participated in 'The Way to Prompt Engineering' workshop by Innovators Quest VIT-AP
- Applied AI and machine learning concepts to develop maze-solving algorithms (BFS, DFS) as part of the Machine Learning Club at VIT-AP (2023–Present).
